

IT TECHNICIANS FOR SCHOOLS

Graveney Primary School

The Brief

NCS Technology were asked by Graveney Primary School in Kent to provide our 'IT Technicians for School' services to manage their IT network. Graveney Primary School required NCS Technology to work with their existing equipment and infrastructure to ensure a seamless takeover and provide reliable systems for staff and students.

The Solution

The current flat funding situation has put increased pressure on the Graveney Primary School budget. With this in mind they engaged NCS to see if they could provide the service they require with a saving to their budget from their previous providers.

Why Choose NCS Technology?

- The Graveney Primary School have successfully worked with NCS on IT projects over a number of years
- The NCS Technician Support Service provides a tailored solution and suited their needs
- The costs were realistic and sustainable, with no hidden extras
- NCS could fulfill all requirements at a reduced cost from their previous providers

Benefits

A reliable, efficient, effective support service that is proactive in its approach.

The Graveney Primary School have a very good working relationship with NCS and have no IT issues.

Everyday monitoring has shown a drop in reportable IT issues from the organisation.

"NCS are efficient, effective, affordable and user friendly. I would certainly recommend their services to colleagues."

Dreena Knibbs, Senior School Manager
